GIANT FLYING PLASTIC JET— NOW ONLY $1

Yes! Gleaming silver plastic *twenty-one inches long!* Slashes through the air at 600 scale miles an hour—*every second under your complete control.*

So life-like that it even SOUNDS like a real jet! So authentic that Pan American Airways has authorized it as an Official Model! *And now it is yours complete—with nothing else to buy!—FOR A PRICE SO LOW THAT UNTIL TODAY IT WAS ENTIRELY IMPOSSIBLE.*

No Fuel! No Danger! Yet It Flies 600 Scale Miles An Hour!

Simply attach the U-Control Line as we show you to the left wing. Then suspend the model from this control line, and begin slowly to swing it through the air. *Before your astonished eyes, you will see one of the most thrilling aerodynamic sights of your entire life!*

This model is perfectly designed for high-speed flight! As soon as it picks up power from the motion of your hand, it will lift up its nose, its wings will begin to cut through the air, it will flash upward and streak ahead of you! As you give it more and more line it will turn wider and wider, fly faster and faster! You have perfect control every second of its flight! You can fly it in circles only five feet wide, *or you can take it outdoors and fly it in gigantic arcs one hundred feet wide—the size of an entire city lot—so fast that your eye can hardly follow it—BUT EVERY SECOND UNDER YOUR COMPLETE CONTROL!*

You can make this plane soar upward—stall at fantastic heights—dive towards the ground—and then pick up speed and flash upward again in a breath-taking rescue! You can make the engines on your plane scream like fighters at bursts of 600 scale miles an hour! You can make them purr softly at cruising speed—hear them roar again as your plane picks up altitude and speed!

You can spiral this magnificent model down into a perfect landing! You can fly two or more planes in perfect formation! You can have jet races! You can have an entire fleet of breath-taking models flown by every member of your family—*and you can have them all for only $1.00 a piece plus 25¢ postage & handling—LESS THAN ONE-FIFTH THE PRICE YOU'D EXPECT TO PAY!*

CHECK THESE INCREDIBLE FEATURES!

All plastic! Almost twenty-one inches long, six inches high, twenty-one inches in wing-span!

Full brilliant official colors! Silver engines and wings—red, white and blue body! All colors already printed on the plastic! Nothing to paint! No chance of a mistake!

Fits together—without glue, without tools, without hard work! All parts already die-cut for you! Nothing to cut! Nothing to shape! Nothing to paste!

So incredibly beautiful that it is authorized by Pan American Airways and Douglas Aircraft! Try it completely at our risk—TODAY!

When you have to deliver the goods

— IT'S GREAT TO HAVE GOODYEAR BIKE TIRES

This is Brian Paul Sullivan, 15 years old, of Long Beach, N. Y. —"Honor Carrier" for the Long Island Newsday and a Long Beach High School Junior. Brian loves football and sailing, but his first love is cycling. Been riding since he was seven. Six afternoons a week, he delivers the papers on a bike equipped with Goodyear tires.

When you need your bike on a busy delivery route, you just can't take chances with tires. So on Brian Sullivan's bike you'll find a pair of rugged, long-wearing Goodyears.

Whatever your bike, however you use it—for work, fun or just to go places—there's a Goodyear tire that's made for you. And there's a neighborhood bike dealer who'll help you pick the Goodyear tire that's best for your bike. See him soon. Goodyear, Cycle Tire Dept., Akron 16, Ohio.

THE RIDDLE

Old Mr. Pig had a problem. Two nice-looking youngsters had answered his ad for a helper at his general store, and now he had to choose.

Little Willie Weasel was bright-eyed and quick. He would make a clever clerk. Mr. Pig admired brightness.

But young Peter Pup was lively and friendly. He seemed generous and congenial. Mr. Pig admired these traits too, perhaps even more than brightness. But he was a just individual. He knew he had to devise a fair test to make his selection. He decided to give them both a riddle to solve, and looking into the clever eyes of Willie, he felt just a litle sorry for Peter.

"Boys," said Mr. Pig, "I'm going to give each of you two pitchers. One holds eight ounces, and one holds five ounces. I would like ELEVEN ounces of water from the well. The one who solves the riddle best gets the job."

Willie and Peter raced for the well with their pitchers, and in a little while both came back with the water. Looking at Willie Weasel's confident face, Mr. Pig sighed a little to himself. "Did you figure it out, Willie?" he asked.

"It was a snap!" said Willie. "I filled the eight-ounce pitcher. Then I filled the five-ounce pitcher from the eight-ounce pitcher. That left three ounces in the eight-ounce pitcher. I emptied the five-ounce pitcher and poured the three ounces from the eight-ounce pitcher into the five-ounce pitcher. Then I filled the eight-ounce pitcher again. That gave me three ounces in the five-ounce pitcher and eight ounces in the eight-ounce pitcher . . . and here it is . . . a total of ELEVEN ounces!"

Peter Pup was shaking his head. "Oh, my," he said, "That certainly is complicated. I could never figure that out, I'm sure."

Mr. Pig looked into Peter's pitchers. They were BOTH full! "Golly, Peter," he said, "I'm sorry, but you've brought me back THIRTEEN ounces! Did you think eight and five were ELEVEN?"

"Of course not," said Peter. "I just figured that water is free and you could throw away what you didn't need. And the time I wasted on the riddle I could spend waiting on a customer."

Mr. Pig laughed. "You get the job, Peter. I knew Willie's answer, but you came with an answer I never thought of. And I do admire a clever young man!"

THE AMBITIOUS ANT

Andrew Ant looked romantically toward the west, where the huge Big City anthill towered almost to the sky. "Some day," he sighed, "I'm going to Big City to achieve fame and fortune!"

"You're too romantic," his friend Anthony said. "That's just another anthill, only bigger."

"How can you say that!" gasped Andrew. "That magnificent structure! Think of the vision and imagination of the ants who created it! The inhabitants of an anthill like that would just HAVE to be high-type individuals, ants who think BIG, not like the little crawly types we have around here!"

"Oh, Andrew," said Anthony, "That happens to be a big anthill because it has a big number of ants living in it. Ours is a small anthill because we have a small number of ants living in it. That's the only difference!"

"I don't believe you!" shouted Andrew. "Your thinking has become small from living too long here in Hicktown Anthill! I'm going to Big City to prove I'm right!"

So Andrew packed his things and set off to seek his fortune in the huge anthill in the west. As he approached the structure he couldn't believe his eyes. The stream of traffic pouring in and out of Big City was staggering! He was quickly picked up in a stream of ants and was soon in the heart of the great anthill. He whirled his head about trying to get his bearings, but everything was too big and moving too fast. Just like a little anthill only bigger, indeed! Wait till he saw Anthony again!

Suddenly he was seized in the terrible pincers of a soldier ant. "Why aren't you carrying a parcel of food for your queen?" snarled his captor.

"I just arrived here," said Andrew with a smile. "I don't know how you live here. But I'm anxious to work hard to gain fame and fortune."

"You will do as everyone else does! You will join a colony on one of our three thousand levels and work for your queen!"

"But that's just what we did back in Hicktown Anthill!" protested Andrew.

"I never heard of Hicktown Anthill!" sneered the soldier ant. "And don't try to tell me any place else is like Big City Anthill! We're the biggest, the richest, the smartest, the greatest!"

Andrew tore himself from the grasp of the soldier ant and fled from the city. Soon he was back in Hicktown Anthill, telling Anthony all about it.

"You were so right!" he said. "I didn't mind the noise and the bragging and the crowds and everything, but then when I found out they weren't even as smart as I am . . . ! Golly! They hadn't even heard of Hicktown Anthill!"
